1 Summary of Performance

1.A Introduction

The Budget Implementation Report for Jigawa State is prepared quarterly and issued within 28 days of the end of each quarter of the fiscal year.

This Q3 2026 Budget Implementation Report is based on the approved budget appropriations for fiscal year 2026, disaggregated by organisational unit and core economic classification of expenditure (Personnel, Overheads, Capital, and Others). It reflects actual expenditures for the quarter (Q3) attributed to each organisational unit, year-to-date cumulative expenditures and balances against each revenue and expenditure appropriation.

At the end of the Third Quarter (Q3), the Supplementary Budget and Review Appropriation Law No. 08 of 2026 was enacted, authorising additional appropriations and amendments to the State's approved budget. The supplementary budget increased the overall budget size by **N46.369 billion**, from **N901.841 billion** to **N948.210 billion**. In addition, budget reviews and virements facilitated the reallocation of funds across various budget heads to improve resource utilisation, strengthen fiscal performance, and align expenditure with emerging priorities and the State Government's development objectives.

This Third Quarter (Q3) report is assessed against the 2026 approved budget estimates. The core economic classifications, as per the National Chart of Accounts (NCOA), refer to:

- Revenue – Economic Account Type 1
- Personnel Expenditure – Economic Sub-Account Type 21
- Overheads Expenditure - Economic Account Class 2202
- Capital Expenditure - Economic Sub-Account Type 23
- Other Expenditures (covering Loans, Grants and Contributions, Subsidies, Debt Service and Transfer Payments) - Economic Account Classes 2203-2209 as applicable.

The report also examines budget implementation in priority sectors, particularly **Basic Education** and **Primary Healthcare**, which continue to receive strategic attention under the **World Bank Human Capital Opportunities for Prosperity and Equity (HOPE-GOV) Programme.** Sections 4 and 5 provide detailed information on expenditures in Primary Healthcare and Basic Education, respectively.

This Budget Implementation Report is produced by the Ministry of Budget and Economic Planning and published on its websites at *www.jsbepd.org*, *www.budget.jigawastate.gov.ng* and the State website at *www.jigawastate.gov.ng*

Overall, the third quarter recorded notable improvements in both revenue mobilisation and expenditure implementation compared with the first two quarters, reflecting increased statutory allocations, enhanced internally generated revenue efforts, improved cash management and the gradual acceleration of project implementation following the completion of procurement activities.

1.B Revenue Performance

Overall revenue performance shows good progress. The total receipts from the available data as at the end of the third quarter Q3 (including Opening Balance) amounted to approximately **N425.718 billion**, representing about **47.2%** of the total approved revenue of **N901.841 billion,** which could be considered satisfactory performance, against the total expenditure of **N306.558 billion**

of the total expenditure approved estimates of **N901.841 billion,** reflecting **33.9%** Performance as of the available data.

The revenue breakdown shows that the Government's share of FAAC recorded the highest performance, amounting to **N237.546 billion**, which represents **56.7%** of the total approved estimates of **N418.680 billion**. In contrast, Independent Revenue recorded **N22.813 billion**, **29.9%** of the estimated **N76.386 billion**, reflecting a significant increase compared with Q2 performance. Similarly, other receipts, comprising Aid & Grants, recorded **N57.098 billion**, representing **28.3%** against the total approved estimate of **N202.075 billion**. Loans/Borrowings, with an approved allocation of **N116.700 billion**, recorded an outturn of **N31.715 billion** based on available data, reflecting a **27.2%** performance.

1.C Recurrent Expenditure Performance

The details of recurrent expenditure performance are presented in the relevant tables in Section 2 of this Budget Implementation Report. Against the approved recurrent expenditure budget of **N212.018 billion**, actual expenditure as of the end of the third quarter stood at **N124.597 billion**, representing **58.8%** budget performance, based on the data currently available.

Actual Personnel Costs amounted to **N79.426 billion** out of the approved estimate of **N120.048 billion**, representing **66.2%** performance. Similarly, Other Recurrent Expenditure amounted to **N45.170 billion** against the approved estimate of **N91.970 billion**, representing **49.1%** performance. These figures indicate varying levels of budget execution across the recurrent expenditure components during the period under review.

Overall, recurrent expenditure remains broadly aligned with revenue performance and is considered satisfactory as of the third quarter of the fiscal year.

1.D Capital Expenditure Performance

The implementation status of capital projects may differ from actual capital expenditure payments, as some projects may have been completed or are still ongoing while the corresponding payment processes remain pending at the time of preparing this report. Therefore, the report is based on the actual expenditure data available at the time of compilation.

As presented in the tables below, actual capital expenditure as at the end of the third quarter of 2026 amounted to **N180.961 billion**, representing **26.2%** of the approved capital expenditure budget of **N689.823 billion**.

1.E Underperformed/Overperformed Revenue Line Items

Revenue performance indicates varying levels of achievement across individual revenue sources.

Several revenue lines/MDAs exceeded performance, driven by improved compliance, enhanced enforcement mechanisms, and increased taxpayer awareness. The Jigawa State Internal Revenue Service and other revenue-collecting agencies also strengthened revenue administration. Collections from selected tax and non-tax revenue sources continued to improve compared with the first and second quarter, demonstrating the positive impact of ongoing revenue reforms. In addition, one capital receipt component recorded actual inflows that exceeded the approved budget provision, reflecting stronger-than-anticipated funding during the period.

Some revenue lines also fell short of projections. This underperformance is attributable to the seasonal nature of certain revenue sources, delayed implementation of some capital projects, timing

differences in receipts from development partners, and the phased execution of government programmes. Some anticipated grants, loans and specialised receipts are expected to materialise towards the end of the second half of the fiscal year.

Underperforming Revenue lines	Overperforming MDA
12010318 Property Tax 12020427 Tender Fees 12020439 Contract Sign Fees (1%) 12020612 Proceeds from Sales of Drugs and Medications 12020614 Sales of Government Buildings 12021006 Refunds - PAYE for FG Staff in the State 12021007 Repayment of Loan to Parastatals 12021008 Repayment of Agricultural Loans (Cluster, Ox/Bull Loan, etc)	Ministry of Women Affairs & Social Development

1.F Overspending:

The review of expenditure performance as at the end of the third quarter indicates that a limited number of expenditure line items exceeded their approved budget provisions. These instances may be attributed to operational exigencies, the timing of budget releases, and the implementation of priority government interventions requiring immediate funding.

The State Government continues to monitor expenditure performance to ensure compliance with the Fiscal Responsibility framework, approved budget provisions, and existing financial regulations. Any identified overspending will be reviewed and addressed through appropriate legally approved budget adjustment mechanisms, where necessary.

Budgetary controls are also being strengthened to ensure that expenditure remains within approved appropriations while accommodating emerging development priorities. Below are expenditure line items that exceeded their approved budget provisions as at the end of the third quarter.

- 21020123 Constituency Allowance
- 21020140 Outfit/Robe Allowance
- 21020147 Administrative Allowances
- 21020166 Industrial Supervision Allowance
- 21030108 Social Security Benefits
- 22020603 Residential Rent
- 22020612 Recruitment and Employment Activities
- 22020704 Engineering Services
- 22020708 Medical Consulting
- 22020902 Insurance Premium
- 22021009 Sporting Activities
- 22021055 Student Exchange Programme
- 22021085 Ramadan Feeding Expenses
- 23010119 Purchase of Power Generating Set

Many of the expenditure line items that recorded overspending were attributable to the following MDAs. Operational requirements, implementation of priority government programmes, and other approved expenditure commitments primarily drove the overspending during the reporting period.

- 022700100100 Jigawa State Agency for Youth Empowerment and Employment

Earlier in the month, the State passed a supplementary budget and approved budget adjustments to address overspending in the affected MDAs and economic line items. These changes will be reflected in the Q4 Budget Implementation Report.

1.G Basic Education and Primary Healthcare Implementation:

The State Government continue to prioritise investments in Basic Education and Primary Healthcare during the third quarter in line with its Human Capital Development agenda and the objectives of the HOPE-Governance Programme.

In the Basic Education sector, implementation progressed across key intervention areas, including teacher recruitment, classroom rehabilitation, school infrastructure improvement, provision of teaching and learning materials, and institutional reforms aimed at improving learning outcomes and

reducing the number of out-of-school children. Increased budget execution during the third quarter reflects progress of capital projects and programme implementation across the education sector.

Similarly, the Primary Healthcare sector continued implementing activities improving access to quality healthcare services. These activities included rehabilitating and upgrading primary healthcare facilities, procuring medical equipment and essential commodities, building healthcare personnel capacity, and implementing health sector reforms to strengthen service delivery.

As at the end of the third quarter, budget implementation stood at **43.5%** for Basic Education and **34.9%** for Primary Healthcare. These figures indicate varying levels of budget execution across the two sectors, reflecting factors such as procurement processes, project mobilisation, and the phased implementation of capital projects. Continued monitoring and timely completion of ongoing activities will improve expenditure performance and achieve the intended sectoral outcomes.

Sections 4 and 5 provide detailed information on expenditures in Primary Healthcare and Basic Education, respectively.

1.H Conclusions

The Third Quarter Budget Implementation Report provides an overview of Jigawa State's fiscal performance during the first nine months of the 2026 fiscal year, covering revenue generation, recurrent and capital expenditure, and budget implementation across key sectors. During the period under review, the State continued to mobilise resources through Federation Account Allocation Committee (FAAC) receipts, internally generated revenue, and support from the Federal Government and development partners. However, sustained efforts are required to improve revenue generation and enhance the performance of revenue-generating Ministries, Departments and Agencies (MDAs).

Recurrent expenditure supported the delivery of essential public services, while capital expenditure reflected progress in implementing infrastructure and other development projects. Nevertheless, the overall expenditure performance highlights the need to accelerate capital project implementation, strengthen expenditure monitoring, and ensure timely processing of procurement, certification, and payment procedures. Basic Education and Primary Healthcare performance also underscores the importance of effective resource utilisation to improve service delivery and achieve the intended sectoral outcomes.

As the State enters the final quarter of the fiscal year, it will prioritise strengthening domestic revenue mobilisation, expediting ongoing capital projects, ensuring compliance with approved budget provisions, and improving coordination among MDAs. These measures will be essential to enhancing budget execution, promoting transparency and accountability in public financial management, and ensuring that public resources contribute effectively to the achievement of Jigawa State's development priorities.

4 Primary Healthcare Budget Performance

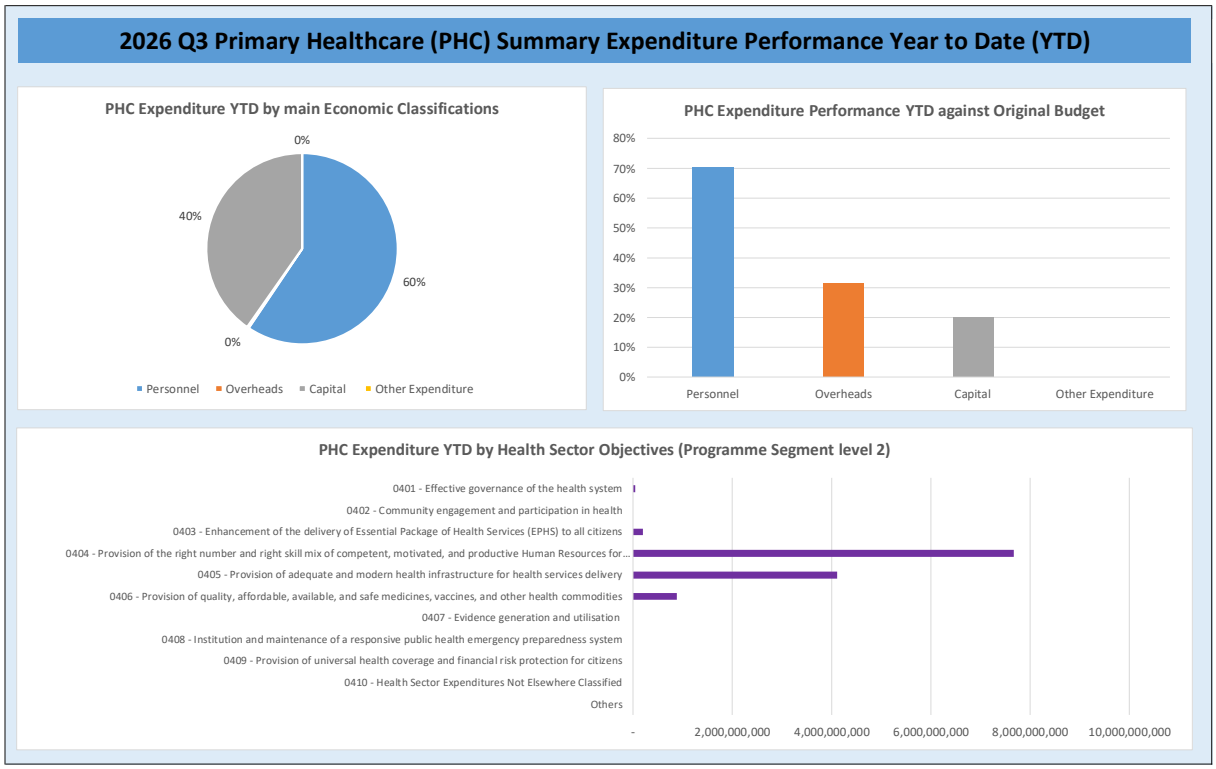

4.A Overview

The State Health Sector Agencies have a total revied budget of N37.343 billion for Primary Health Care Services. This includes N10.899 billion for Salaries and Wages, N143.200 million for Other Recurrent/Overhead costs, and N26.301 billion for Capital Expenditure on primary healthcare projects, covering developmental projects and other healthcare management initiatives across the State.

As at the end of the third quarter, total utilisation stood at approximately N12.900 billion, representing 34.6% of the total allocation. This includes Personnel Costs, Other Recurrent Expenditure, and Capital Projects.

A summary of Year-to-Date (YTD) performance against the original budget is presented below, covering the main economic classifications of expenditure and performance by programme segment (objective level).

Figure 3: Summary of Primary Health Care Budget Performance for Quarter and Year to Date

5 Basic Education Budget Performance

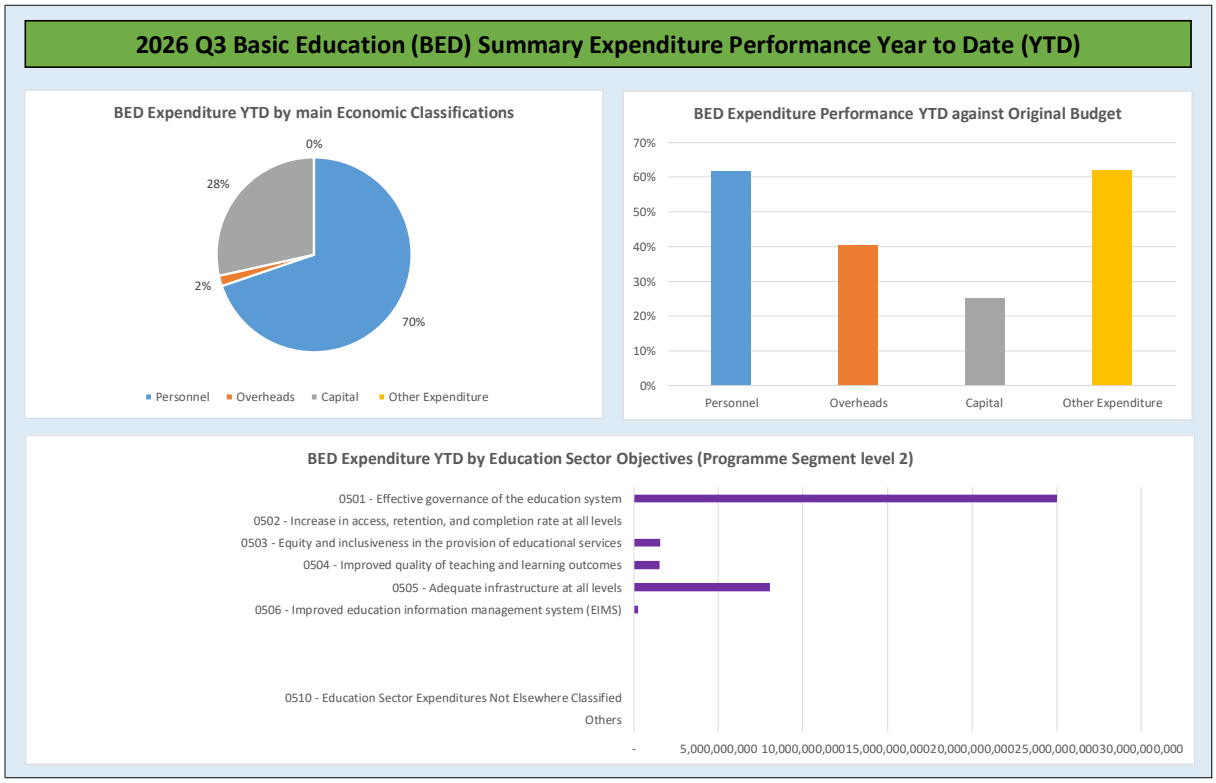

5.A Overview

The State Basic Education Sector Agencies have a total approved approved budget of N82.571 billion for Basic Education. This comprises N41.133 billion for Salaries and Wages, N1.525 billion for Other Recurrent/Overhead costs, and N41.043 billion for Capital Expenditure on Basic Education development projects and related initiatives across the State.

As at the end of the first quarter, total utilisation stood at N19.780 billion, representing 23.6% of the overall allocation. This covers Personnel Costs, Other Recurrent Expenditure, and Capital Projects.

A summary of Year-to-Date (YTD) performance against the original budget is presented below, covering the main economic classifications of expenditure and performance by programme segment (objective level).

Figure 4: Summary of Basic Education Budget Performance for Quarter and Year to Date
