Plan

Introduction

The principle of cocreation and constructive engagement have been in practice in Jigawa state prior to the introduction of Open government partnership (OGP). There exist some platforms and Technical Working Groups (TWGs) that were established with nearly equal membership between the COS and government officials with co-chairs from both sides. Platforms such as Jigawa Maternal accountability Forum and other TWGs embedded the principle of cocreation and partnership to achieve single objective.

Thus, the OGP was seamlessly and wholeheartedly embraced and accepted by all parties.

The Thematic Areas

The State Action plan has five thematic areas, they were agreed upon after series and rigorous consultations, engagement and drilldown. Initially, seven thematic areas were identified. Later reduced to five. The agreed thematic areas are in tandem with state development plan and 12point agenda of the present administration. Meaning the SAP is not a stand along document, it is a response to overarching state development plans and serve as catalyst for

Summary of the State Action Plan

Thematic Areas	Commitments
Fiscal Transparency % Accountability	1. Ensure more effective and wider citizens' participation across the entire budget cycle
Service Delivery and Community Engagement	1. Improve Human resource in relevant MDAs related to service delivery (Education, Health, Agriculture and Water Sectors) 2. Strengthen dialogue mechanism between Government and the Citizens

How we get there

Shared vision

The State Action plan is synonymous with state development plans

Both the state and non state actors strive for the state economic prosperity and improved access to quality services

Maximize timely deliverables for real-time service delivery

Cocreation

Pursue scalable citizens service through sustainable strategies

Cultivate one-to-one engagement with robust ideas

Work as a team

Constructive Engagements

Engage and ensure vertical and horizontal linkages with cutting-edge deliverables

Evidence based engagement with emphasis on improvement rather than fault findings.
